

Safety, Quality, Integrity and Teamwork

Safety is "priority one" at Cannon Construction.

Our commitment to Safety begins with the CEO and is shared by every employee. The Safety program is focused on protecting human life, the environment and it instills the highest standard of sound Safety procedures in all of our people. It applies to every component of our equipment and facet of our work. It is at the center of all we do!

Quality performance is a total commitment.

In every aspect of our work, we meet and in most cases exceed the industry standards. Our quality workmanship reflects our pride in our work.

Integrity at Cannon means "our word is our bond".

Businesses, municipalities and government agencies rely on our word. When we say we will do something, we do it!

Teamwork is how we operate.

Our team is comprised of the people within the company, our clients and everyone associated with a project from the inspectors, government officials and other contractors on the site. The only way we work is together.

Safety, Quality, Integrity and Teamwork are the hallmarks that have not only guided us into the successful industry leadership position we hold today, they have been instrumental in forming a company that is an attractive place to work.

With an average of more than 10 years tenure among our team, Cannon has grown to more than 100 people strong with operations nationwide. We have the expertise, partnerships, size and reputation of a large corporation all while maintaining the small business agility and family-oriented culture that makes us uniquely Cannon. **"We walk the walk", as a team and as a family.**

Mike Cannon, President/CEO

We are Cannon Construction Inc., a quality telecommunications company who provides outside and inside plant construction services for voice, video and data networks throughout the United States of America and its territories.

We are proud to be a preferred contractor for government agencies including the Department of Defense, state and local governments, system integrators, telephone companies, private corporations, utility co-ops and commercial developers.

Since 1985, our reputation and success has been built by a team dedicated to our company hallmarks: Safety, Quality, Integrity and Teamwork. We have exceeded each and every client's needs one project at a time.
